The fleet of the Atlantic and European ports, numbering thirty-five vessels, all due here, is coming in rapidly. In addition to the four which arrived within the twenty-four hours, there are now three—the ship *Pearce*, from Newport, England, with coal and iron to Falkner, Bell & Co. and a French bark and a German bark—in sight from the heads.

From the Eugene *Guard*: Wm. J. Bailey has left at this office specimens of coal taken out of a vein discovered by him last summer. The deposit is four miles from the railroad, and near Camas Swale. One of the specimens resembles in appearance cannel coal and burns as readily. Another specimen we believe to be pure anthracite. The vein is about eight feet in depth, and has been tunneled about ten feet.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

New York News.

NEW YORK, Dec. 9.—Several new cases of smallpox are reported since noon. Ten were reported on Friday and five deaths, making thirty-six cases and fourteen deaths for the week.

Col. Davis of General Pope's Department reports that the placing of the Apaches upon reservations would be unwise, and that for the present they should be kept where they are.

The Parade Question Again.

NEW YORK, Dec. 9.—At a meeting of the International Society to-night a dispatch was read from Governor Hoffman saying that the law placed the matter of parade in the hands of the police authorities. The action of the authorities in prohibiting the procession was strongly denounced. There was much discussion about changing the day for the parade from Sunday, as the special objection of the Police Commissioner was on account of the day. A motion was carried to parade on Christmas day. Subsequently it was decided to refer the matter to the Federal Council for approval. A member after delivering a violent denunciation of the police authorities expressed a determination to be present to-morrow at the place from which the parade was to start with a red flag and sash, and march over the route himself.

Convicted for Murder.

LAWRENCE, Dec. 9.—The motion for a new trial in the Medbicott case was opposed by Judge Barrett, Garrett to-day, and the prisoner, Dr. Medbicott, was thereupon sentenced to be hanged on the 26th of January. A bill of exceptions was filed by the prisoner's counsel, and the case will go to the Supreme Court, which meets in Topeka early in January. The general impression among lawyers is that the Supreme Court will grant a new trial.

WASHINGTON CITY.

Decision in the U. S. Supreme Court.

WASHINGTON, Dec. 9.—In the Supreme Court of the United States the case of the bark *Delaware* vs. the Oregon Iron Co. was decided. This libel was filed to receive damages for non-delivery of certain pig iron laden on board the *Delaware* at Portland, Oregon, to be carried to San Francisco. It was admitted on the trial that the cargo was shipped under a clean bill of lading; that it was stored on deck and was fastened for the safety of the ship. It was contended by the claimants that the mode of storage was agreed to by the shipper. The principal question was whether parol proof of such an agreement could be received in court. After the examination of counsel over it was held that on grounds of policy as well as of principle such proof ought not to be received. The conclusion was that the master must be deemed to have carried the goods on deck without the consent of the shippers, and in violation of his contract, and that the vessel was consequently responsible for the loss. Appellants conceded that in the absence of a contract to the contrary when goods are shipped under a bill of lading such as that in this case, the presumption is they are to have such storage as is according to the custom of trade, which it is admitted is to be under deck, but it is contended that the court erred in including parol evidence of a contract. Senator Casserly appeared for appellant, and Jno. E. Ward for respondent.

California Swamp Lands.

The Daily Oregonian.

MONDAY MORNING, DEC. 11, 1871.

That Spurious "Grand Jury Report."

Mr. Sylvester Pennoyer contributes to the *Herald* a statement regarding the document purporting to be a report by the grand jury of this county, which has been put in circulation. We give the material portions of the letter, as follows:

PORTLAND, December 9th.

The OREGONIAN of this morning designates the report of the grand jury for this county as "a spurious document," and asserts that it "was not made by the grand jury," but that it "was written, accepted and signed by only one member of that body." In reply, I have to say that such report is not a spurious document; that it was made by the grand jury, and was by that body accepted. On the last day of its session I wrote that report in the grand jury room, read it to the jury after being finished, whereupon, by vote of the grand jury, it was indorsed as their report, and so presented to the Court. * * * Allow me to say, that to the very best of my ability, I avoided making what might be deemed a partisan report; but that being placed in a position where it was my duty to speak plainly, I did so, and was sustained therein by the entire grand jury, the majority of which was Republican. I am pleased to say this to their credit.

At present we have only to say to this that several members of the grand jury have stated that the document in question was not accepted by them as their report; that it was drawn up by Mr. Pennoyer alone, and by him read late one evening to the grand jury in their room, but no action was taken upon it; that after they adjourned that evening they had some conversation about it and expressed themselves as not satisfied with the document and resolved to have it amended; that on assembling next morning they objected to it, told Mr. Pennoyer so, and informed him that they wanted the document for revision; that he told them it had been placed in the hands of the Court the evening before; that on going into Court in the morning they were immediately discharged, and hence had no opportunity to make the revision; that they did not intend from the first to have this document submitted as their report; that they did not sign it nor vote to accept it, and that no vote was taken upon it; that they made no examination of the records from which the figures given in the document purport to be taken and do not know whether they are correct or not, and that they stand ready to publish a statement over their own signatures giving the whole facts in the case. Such being the state of the affair, it is not for us to say more. The gentlemen of the grand jury in whose names this spurious document is put forth should now come to the front.

Congressional Apportionment.

Congress is about to act on the apportionment bill, and it seems probable that the number of members of that body will be increased. The bill now under consideration in the House is framed on a basis of two hundred and eighty-one members. The present number of members is two hundred and forty-three. Local pride in States which have gained little in population during the last decade seems to be unwilling to submit to any diminution of the number of Representatives. Yet the House is as large already as any parliamentary body can be and work efficiently. A stop should be put to its increase. It is a foolish local pride that would rather increase the aggregate number of members than consent to a reduction of the number in the States where the population is about stationary; for no method can be devised which will enable such States to retain the relative strength in Congress which they have heretofore possessed.

A New England paper discusses this subject in a spirit that is admirable. It says: "This section of the country wants no more than its just share of political power in Congress or out. We know well enough that our relative numerical strength has been decreasing decade after decade since the adoption of the Constitution. We long ago ceased to expect to rule our elements by the unreasoning power of numbers, and began to work with the conviction that our strength lay in proposing and advocating what is wise and right for all, not more for ourselves than for all the rest. We seek the prosperity, the security and the honor of the nation, repudiating all sectionalism, and confidently expect the patriotism and the wisdom of the country to be in close alliance with us, and to re-enforce our numerical feebleness. This has been the case hitherto, and doubtless will continue to be the case as long as we send to represent us in the national councils undegenerate statesmen. That we should have in Congress a majority of the representatives in forever out of the question, and this being so it is comparatively immaterial whether we send three-eighths or seven-sixteenths of all. The essential point is, that, being few or many, they represent our highest culture and our best character, devoted to the advancement and prosperity of the whole Union." Sentiments like these are worthy of American citizens, and are in refreshing contrast with the utterances of those who cannot get beyond the narrow ideas of sectionalism.

Large and Small Farms.

Trall fell in an address delivered before a Farmers' Club in Massachusetts, Gen. B. F. Butler made some practical remarks on the subject of large farms. He alluded to the farms of France, and said that the nation was not as large as our State of Texas, but France produces more wheat than we do in the United States, small as she is. How is that done? By means of her small and well tilled farms. She has about the same number of inhabitants that we have, and in 1868 her product of wheat was 350,000,000 bushels against 240,000,000 in the United States. We talk about providing for all the markets of the world, but in 1868 we sent to England 9,000,000 bushels of wheat, while France sent eleven million dollars worth of butter to spread on the bread made from the wheat sent by the United States. These statistics will teach us two things. First, to carry on any kind of business, especially farming, needs great personal thrift and economy. Secondly, the small farms are much more profitable than large ones.

In Oregon most of our farmers have too much land. It is so in most of our newer States. The Philadelphia Press explains it thus: In France, and most European places, there is no increase in the value of land except near the few growing towns. In our country no one owns a foot of land but expects to reap some profit some day from a rise in the value. Hence our landholding farmers have two characters—they are agriculturists and real estate speculators. This is the reason why most have too much land for farming purposes.

The same adds that so far as agriculture is concerned, there is a great evil, and a mistake is made when such ideas prevail. There is no better pursuit than agriculture when intelligently and energetically followed; and one will make more by sticking closely to it than by suffering what he does in it to be influenced by outside speculators.

When land reaches its highest value and men cease to hold for the purposes of speculation we shall have smaller farms. Higher cultivation will, beyond question, give as large an amount of crops from much less land.

Railroad Construction Against Ship-Building.

The growth of British and comparative decline of American shipping, are facts which are much and variously commented on just now. Some discuss them in a merely partisan view and think that the ascendency which Great Britain is acquiring is an effect of "Radicalism," or of the policy of the "Radical party" in the United States. These persons are of that same class of thinkers who hold that the Chicago and Wisconsin fires were a result of "Radicalism." Others maintain that high tariff has killed American shipbuilding and commerce, and that free trade is the only remedy.

Most of the discussions are entirely irrelevant, and do not touch the core of the matter. England, since iron began to be used as a principal material in ship-building, has an advantage in her cheap labor and well established industrial system. Further, she is stimulating navigation and foreign commerce with subsidies of the most lavish character. She does this because she *must* have a market for the products of her labor. Her capital *must* have room for investment, and since few new enterprises remain to be started within her borders, her efforts are directed to outside and distant projects.

The converse of these conditions is the rule in the United States. The greater part of the cost of iron is labor, and higher wages prevail here. Our Government gives comparatively no subsidies for navigation and foreign commerce, while British steam lines are subsidized in all directions. On her war navy England expends the great sum of $60,000,000 a year, while we expend on our navy less than one-third that amount. Is it any wonder that the ship building and foreign commerce of Great Britain with those advantages take the lead of our own? Again, the railroad era in the United States, which is now in the height of its activity, has withdrawn our attention in a great measure from ship-building and from all distant enterprises, and concentrated our energy and our capital at home. Our capital is now employed in the channels of domestic commerce and in the development of home resources, which it finds far more profitable than ship building and navigation. The opening of the interior of this vast continent by our railways has turned American energy inward and given it a vast field to bustle in. Years ago when capital and enterprising business talents were shut in on the Atlantic seaboard and could not push their projects west of the Alleghany Mountains, our people built ships and sailed them to every part of the world. We had fine timber and England had none. But now the conditions are totally changed. Wooden ships are going out of use, and our capital is finding employment in the development of the vast internal resources and industries of the country. Great Britain is subsidizing her foreign, and we are subsidizing our domestic commerce. She is encouraging with subsidies the building of ships, and we are helping with subsidies the construction of great lines of railway.

Railroad Earnings.

The San Francisco *Bulletin* of a recent date gives the following highly interesting railroad statistics:

The October earnings of fourteen of the leading railroads in the United States amounted to $3,-060,580, and increase of $503,000 as against the same month in 1870. For the first ten months of the year, thirteen of the roads report their gross earnings at $63,201,400, an increase of nearly $5,000,000 as compared with the same time of 1870. The two branches of the great continental railroad give their October earnings as follows:

	1870.	1871.	Inc.
Central	$628,447	$1,005,476	$177,027
Union	719,523	800,000	80,477
Total	$1,337,970	$1,805,476	$257,505

Showing a handsome gain of over a quarter of a million of dollars on the month's business. The gross earnings for the ten months ending November last were as follows:

	1870	1871	Inc.
Central	$6,063,911	$7,958,827	$1,294,916
Union	6,643,222	0,225,896	317,457
Total	$12,217,183	$14,194,642	$977,459

The returns from the Union are estimated; and are probably under the mark, since they show a deficiency of $317,457, which taken from the increase on the Central, gives only an aggregate gain of $977,459. The freight traffic across the continent was never so large as during the past few months, and as both lines have participated, each must show a corresponding increase. It will be remembered that the freight shipped from California to the East over the Central and Union roads for the ten months ending with October was 52,435,000 pounds, including 13,250,000 pounds teas, 1,591,300 pounds coffee, 16,768,000 pounds wool; 2,070,000 pounds wine, 1,903,000 pounds fruit; 1,272,000 pounds leather and 11,242,000 pounds unspecified merchandise.

Flattering Prospect.

Gudgeons are very plentiful at the termini on Puget Sound, and it is probable that the "catch" will soon be immense. We take this from a Seattle paper:

It will be strange if some of the terminus bitten victims don't find themselves in the mad house. During the week fortunes have been made and lost in real estate speculations, made by parties purchasing opportunely and lost by others selling prematurely. One hundred acres sold two weeks ago for two thousand dollars has since changed hands for five thousand, and is now held at ten thousand dollars. Other parcels of land have undergone a like rapid enhancement in value, and some cannot be purchased at any price. Lands that have gone a begging for years for purchasers at one thousand dollars have suddenly been discovered to be worth ten thousand; if the owners were offered the last named price to-day, they would demand fifteen or twenty.

The *Herald*, whose editor is lapsing into the worst vices of the old "Oregon style," says in his usually elegant way that the editor of the OREGONIAN is a "servile tool of an administration whose treasury-pap he sucks." The editor of the OREGONIAN is a Republican and supports the National Republican Administration; he supported it before he had any official position under it and will support it after he retires from that position. When he has occasion to speak of the Administration he does not employ the language of strained panegyric, since neither his inclinations nor self-respect permit him to fall into the style of servile adulation which such papers as the *Herald* are wont to use toward the Executive of Oregon to repay "litigant" favors.

In Washington Territory they judge their Legislature not by the amount of good it accomplishes for the Territory, but by the measure of its abstention from evil and mischief. Thus, the Olympia *Echo* says: "Our late Legislature was, perhaps, the best disposed body of men that has assembled in our Territory for twelve years past. In times past it seems to have been the study to see just how much mischief and injury could be accomplished." Having escaped so well at the recent session the *Echo* pionsly expresses a wish that there be no more Legislatures for six years.

The Salem Ring.

SALEM, Oregon, Dec. 9, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: While your newspaper men of Portland and elsewhere are indulging in so many exquisite punches at Governor Grover, which you evidently relish as punches of most excellent flavor, we at the capital have an idea that you are wasting your powder on a "dead duck." There may be such a man as Grover here and he may be Governor of the State, but we seldom see him—still more rarely hear of him, and if he is talked about, it must be in your columns, for we scarce ever mention him. To describe the Oregon Executive, we should have Harper's favorite artist, who, having at once immortalized himself and Tammany, ought to be induced to come here and "do" that heavy jewel the Salem Ring. About the *Nast*-iest imagination possible as to political corruption, would be requisite, and the Executive office can be depicted by a single group. Place John F. Miller in the foreground, leading the way and saying his say, and let the figure of Grover be bent double with Bill Watkinds on his back, and the great caricaturist could do the job complete. Watkinds is, just at present, the most useful man in the State. I don't overestimate him a particle in saying, as you will own to, when you realize that he is breaking Grover's back and destroying the Democratic party. A few days ago we had a city election, and when it was understood that this fellow (Watkinds) had declared that the independent ticket should succeed, many respectable Democrats refused to vote it, and his favorite candidate, John F. Miller, only got twenty votes for Councilman in a close ward. Every day we can hear of defections, from that party, of men who won't stand any party relations with Bill Watkinds. He is suing the *Statesman* for libel and claims $20,000 damages *to his character*, while at the same time, he asks a change of venue in a damage suit Sam Clarke has brought against him. To-day the motion for a change was argued, and it is reported that he jumped up and declared that if Mallory didn't let him alone he would knock him down. That was more than even the patience of the Democratic Bonham could bear, and the Judge had the man brought up to the bar of the Court for reprimand, whom Watkinds repeated the threat and actually insulted the Court. The man is contemptible and disgraceful, but he has a great mission before him, which he is faithfully fulfilling. He already has Grover so thoroughly muzzled that that pitiful demagogue is beyond hope of salvation, which is a great and good work that redeems a multitude of sins, and I do not hesitate to say that if an election was to be held to-morrow, thanks to him, Marion county would greatly increase her last majority; and I am told that the disgust extends to all parts of the State. Disgusting things have their uses, and in all humility, I candidly believe that in God's providence Bill Watkinds will cause truth to shine, though in a left-handed way, and his patron Saint, Grover, will go under with him when his great mission is ended.

Mr. Editor, don't waste powder on that "dead duck," Lafayette Grover.

JOHN SMITH.

The Two Rules.

(From the New York Times.)

The Albany *Argus*, which, with the Buffalo *Courier* and many other Democratic papers, openly defended the Tweed thieves until the very last moment, and suppressed the proofs of their guilt, now bursts out in italics and full capital about "corruption." A more dishonest use of the press was never made than when the *Argus* and the Buffalo *Courier* refused to publish any of the fraudulent warrants which proved the guilt of Tweed & Co. The *Argus* now says, with the silly emphasis of capital letters, "There should not be one rule for a Democratic thief and another for a Republican robber." Quite right, and here is a case in point: Hodge, a Republican peculator, is now serving his term of ten years' imprisonment in Sing Sing. The other day his house and property were seized and sold for the benefit of the Government. That is the Republican rule—now for the Democratic: Tweed, a public robber to the extent of unknown millions, has a grand house and garden on the corner of Forty-third street and Fifth avenue, and another at Norwalk, Conn., a large interest in several others, and no end of real estate. Moreover, he made a present to a woman, with whom he keeps up a base intimacy, of two houses within two years, at a cost of over one hundred and fifty thousand dollars. This man Tweed is still President of the Board of Public Works, and we do not hear the *Argus* remonstrating against his holding that office. The Albany *Evening Journal* tried to extract from it its opinion whether or not it supported Tweed's candidacy for the Fourth Senatorial District, but the *Argus* would not say a word. It has defended Tweed and all his gang until further defense became out of the question in any quarter. Hodge, in prison—Tweed, President of the Department of Public Works; there you have the difference in the two "rules" alluded to by the *Argus*.

Our neighbor of the OREGONIAN is capricious in his ways and opinions; he really shows the lack of the stability and fortitude of mature manhood. The other day our neighbor expressed the opinion that the Albany *States Rights Democrat* was a paper of the highest respectability, truthful, dignified and courteous; but yesterday morning he classed it among "the beggar litigant press." How much are opinions, that come from such a capricious, petulant, overgrown child, worth?—*Herald*.

The OREGONIAN did say some weeks ago that the Albany *Democrat* had usually evinced good judgment and a desire to present things fairly. That remark referred to its past, not to its future. It has now enrolled itself among the most servile of the Grover press, and defames and vituperates everybody who criticises its master.

The American in Europe is now a quiet person, who minds his own business and buys his bills promptly. The vulgar display, which has been so often attributed to Americans, is made by those who were born there, but having made fortunes in this country, go home to spend it in dash and display.

Failure of many of the most eminent physicians of San Francisco to cure a case of Rheumatism.—Triumph of the Oak Wood Remedy.

SAN JOSE, August 25, 1871.

DR. A. M. LLOYD & Co.: This is to certify that I, the undersigned, have been sick for five years with Rheumatism, and have been treated for many attempts. My trouble has been weakness of the back and side, and wandering pains all over my body. I have been treated by many of the most eminent physicians of San Francisco, as well as of this city, but without any effect. At last I was induced to try your UNE WERD REMEDY, and the result was that after taking the contents of two bottles I found myself perfectly cured. I, an afflicted with Rheumatism, I say TRY THE UNE WESD REMEDY, and you will be cured. Yours truly,

Section 1. The City Assessor shall make and return the assessment of all property subject to taxation by the city properly certified, to the Auditor, on or before the first day of December in each year.

Section 2. Upon the filing of the assessment roll, the Auditor shall give notice by publication in some daily newspaper that the same is open for inspection and will remain open until the first day of January following, prior to which time all applications for correction of errors must be filed.

Section 3. Any person deeming himself aggrieved by the assessment, valuation, or taxing of property may apply to the Common Council for a revision of the same. Such application shall contain a list of all the property subject to taxation for city purposes, owned by, in the hands of, or under the control of the applicant and a concise statement of the particular item or items claimed to be erroneously assessed, which said application shall in all cases be verified by the oath or affirmation of the applicant, and must be filed with the Auditor before the first day of January following the date of the filing of the assessment roll.

Section 4. The assessment roll and all applications for revision, shall be referred to the Committee on Ways and Means, who, with the assistance of the Assessor and Auditor, shall carefully examine the same and report to the Common Council such alterations and corrections as they may deem necessary and proper to be made.

Section 5. The assessment roll when corrected shall be accepted by the Common Council, and all general or special taxes when levied shall be extended thereon by the Auditor and said roll delivered to the Treasurer for the collection of such taxes.

Section 6. Upon the receipt of a tax roll of any general or special tax the Treasurer shall give notice by publication in at least two newspapers printed in the city, that such taxes must be paid to him within thirty days or they will be returned as delinquent.

Section 7. The Treasurer shall return the tax list to the Auditor at the expiration of thirty days from the date of the notice provided for by section 6 of this ordinance, with a statement of the amount collected, and all taxes unpaid at the time of making such return shall be deemed delinquent and particularly designated upon the tax roll as such.

Section 8. When so directed by the Common Council, the Auditor shall deliver the tax roll to the Chief of Police and annex thereto a warrant, commanding him to collect the delinquent taxes thereto named in the manner provided by law. The Chief of Police shall return said warrant with his doings thereon within sixty days from the date of its issue.

Section 9. The Chief of Police shall receive five (5) per centum in addition to the costs of collection upon all delinquent taxes collected by him, and all warrants for the collection of such taxes shall demand him to collect such per centum in addition to such taxes coin.

Section 10. Inasmuch as the assessment roll now being made is incomplete, the time for the return thereof in the manner provided by section one of this ordinance is hereby extended to the 15th day of December, 1871, and the time for filing petitions for the revision thereof as provided by section three of this ordinance is hereby extended to the 16th day of January, 1872.

Section 11. Ordinance No. 1057, entitled "An ordinance prescribing the time of making the assessment of property subject to taxation by the city of Portland, and of returning the same to the Auditor, and of applying to the Council for a revision of the same;" ordinance No. 108, entitled "An ordinance providing within what time the city taxes must be paid to the Treasurer;" and ordinance No. 180, entitled "An ordinance providing within what time a warrant for the collection of delinquent taxes must be returned, and fixing the compensation of the City Marshal for collecting such taxes," are hereby repealed.

MONDAY MORNING, DEC. 11, 1871.

CITY.

TWADDLE ABOUT JOAQUIN.—The other day the *Herald* gave the public the information that Joaquin Miller had left orders here for the purchase of city property, intending to make Portland his future home. Before that Joaquin was going to South America to get fresh inspiration. Later, the San Francisco *Era* had it that he was going to make San Francisco his future home. Now comes the *Herald* again, and says that he is going to England to stay (till his "nascent" reputation shall become "matured;" that it is rumored he is about to be wed to a lady of the Scotch nobility; that he is engaged in modernizing the New Testament, etc.—all of which is, probably, the idlest of twaddle. We doubt if Joaquin has the least idea himself, whego he is going to reside, whether he will ever marry again, or what he can do with the New Testament. Joaquin does not read the papers—if he did he would probably find it a very amusing exercise, sometimes.

PASSENGERS FOR CALIFORNIA.—The steamship *Oriflamme* sailed Saturday evening for San Francisco. The following is a list of her passengers: Hon J. H Mitchell and wife, William Hall, Mrs J Lufkin and child, Miss Lizzie Effort, J C Sutherland, William Anderson, J Abrams, Mrs Walter Moffett and infant, Mrs Kalshaun, Mrs S E Hanmore, F W Vanderabo, W H Thomas, Michael Smith, N Smith, Robert Higgins, Professor C B Plummer, S B Reeden, J E Terry, B E Vestal, Mrs E Leon, G Tobbitt, Miss Maggie Duler, Miss Mary Chain, Frank Kigalbuth, Robert McNeally, Thomas Ronan, C Williams, Mr Brown and wife, M J Woodruff, S A Walter, Miss Kate Givens, C H Hopkins, George Reigh, J Ogle, M Almy, Mrs Cousine, Thomas Monteith, Mrs John Andrews, Miss G M Parchael, Mrs Clara Bower and two children, and 71 in the steerage.

A CASH FOR THE CHARITABLE.—The Sunday *Bulletin* has the following: "We have just heard of a distressing case which appeals strongly to the charitable people of our town. A Mrs. Nowell a widow with a family of several children—has been ill for some time, and yesterday morning one of her children died. The poor woman was without means to defray the funeral, or even to furnish the necessaries of life to the remaining children. Some of the neighbors hearing of the case took charge of affairs, and had the corpse of the dead child buried, and furnished such things as were most urgently needed, but were unable to do a great deal. This case should be taken in hand by some of our charitable institutions, and the unfortunate family cared for."

ATTEMPTS TO BE TUNNOH-A SAFE.—It is said two attempts were made last week to break into a safe at Smith Bros.' foundry on First street. The first was a total failure, and the second not a brilliant success, as the burglars only made one or two small holes in the safe and failed to get anything out of it. On the third night the proprietors staid up to receive and entertain their guests in a proper manner, but the latter failed to come—time. They had probably come to the conclusion that it would be unsafe to go any more for that safe.

HOTEL ACCOMMODATIONS AT THE DALLES.—The Dalles *Mountaineer* says: "The work on the Umatilla House is progressing. It is now expected to have it completed by New Years when the proprietor contemplates giving an immense ball. When finished, the house will have twelve new suits of bedrooms newly furnished; the dining room will be 75 by 32 feet; the ladies' parlor, 40 by 25 feet. The fact is, the Umatilla House is going to make a very pretty and imposing appearance and will be a credit to the town.

SOAP.—Somebody—to the affiant unknown—has sent us several cakes of "Watson's medicated soap for removing grease, paint, pitch and varnish from all goods of durable colors." We are not aware to whom we owe thanks—someone, we suppose, who takes us for a "durable color," and who fancies that the use of a little soap wouldn't hurt us any. All right—we'll use it—and if we like it, we'll let him know.

PLUMMER LEAVES HIS PHOTOGRAPH.—Mr. C. B. Plummer, the humorist, went away on the steamer Saturday. He did not leave a lock of his hair, but he did send us a half dozen or so of his photographs, which represent him in as many of his favorite and best characters—the Hard-Shell Baptist, Widow Bedotte, Yankee, Irishman, etc. We shall never forget the genial and versatile Plummer.

TALKING PATIENT.—Thos. H. Reynolds, Deputy Sheriff of Marion county, came down on Saturday, bringing with him to the Insane Asylum, as one man named McIntyre. The man had been indicted for some crime, and on the trial was acquitted upon the ground of insanity. Thereupon the county authorities ordered him to be conveyed to the asylum.

RETURNING TO SAIL.—The steamship *Guesse Telfair* will sail at four o'clock to-day for San Juan, Nanaimo and Sitka.

The *Ajax* will sail for San Francisco on Saturday, the 16th.

The *California* is advertised for Puget Sound, to sail December 20th.

SKATING AND VELOCIPEDING.—Messrs. Myrick & Dodge have secured a re-engagement of Miss Carrie A. Moore for three nights, and she will therefore continue her exhibitions of feats on skates and the velocipede at the Pavilion on Monday, Tuesday and Wednesday evenings.

PASSENGERS FROM THE NORTH.—The steamship *Guesse Telfair* arrived on Saturday from Sitka and northern way ports, bringing the following named passengers: Col Taggart, D Dougherty, Ernest Allen, F Klusman, George Cowden, James Farrell, A Crist, Mary Jovounnis.

SALE OF REAL ESTATE.—On Saturday Mr. A. B. Richardson sold at auction ten acres and a quarter, in Simmons' Addition to East Portland for $3,150. He also sold, same day, lot 5 in block 13, Caruthers' Addition for $950.

RAILROAD ACCIDENT.—It is reported that a construction train ran off the track on Saturday near Harrisburg, killed one Chinaman and injured six others. We have, however, no further particulars of the accident.

SHIPPING.—The bark *Webfoot* arrived early yesterday morning. The barks *Rival* and *Windward* are in the river. The *Okanagon* is towing one of them up, and the *Dixie Thompson* the other.

DEMAND FOR FINE STOCK.—The last number of the *Farmer* says: "There never has been a greater demand for improved stock of any kind than at the present time."

FROM THE ISLANDS.—The bark *Grace Roberts* has arrived from the Sandwich Islands with a cargo of 4,500 packages sugar, to Allen & Lewis.

STEAMER FROM SAN FRANCISCO.—The steamship *Ajax* will sail from San Francisco to-day for this port.

LOCAL BREVITIES.

There were no mails received yesterday from any point south of Eugene City.

The public schools will close on the 22d for the holidays, and reopen January 3d.

The *Guesse Telfair* brought from Nanaimo, last trip, 120 tons coal for the Gas Light Co.

The Lutheran Church Fair will open to-morrow evening at the Washington Guard's Armory.

Photographs have been taken of some of the fine stock lately imported by Mr. S. G. Reed.

Owen Cassiday is in grief because a party by the name of Lee suspects her of stealing fourteen dollars.

The United States Circuit Court will meet to-day, and the United States District Court, to-morrow.

The number of children enrolled in the Taylor street M. E. Sunday School is four hundred and thirty-six.

Four youths were fined by Judge Denny, on Saturday, for improper conduct near the North Portland school house.

A city cotemporary startles us with the statement: "We have no more women in our community." What does he mean?

Gambling and Lotteries.

[From the Olympia Echo.]

This subject has engaged the attention of the people of Olympia and the members of the Legislature during the past month. The question came up in the shape of a lottery bill in our Territorial Legislature, and in view of this agitation of the question, the Unitarian minister, Rev. John C. Kimball, preached on the subject in Olympic Hall, in this place, on the evening of Nov. 19, to a large and appreciative audience. His discourse, for repleteness of Christian truth, eloquence and practical common sense, has been rarely equaled and never excelled by any one we ever heard on the subject. The following is an abstract of the sermon, which however, was delivered from only brief notes. The text was taken from Matt. xii: 33: "The tree is known by its fruit." If there is one duty which belongs to the pulpit in this age of the world more emphatically than another, it is not to set forth elaborate systems of theology, but to hold up clear and distinct the highest standard of Christian morals, hold it up, too, not with reference to the sins of Adam and Eve, David and the patriarchs, but with reference to the iniquities of our own land and our own day.

It was for this reason he would speak on the folly, the sin and the shame of lotteries and gambling.

He meant to be fair, meant to hit the head of sin wherever it was found, whether in the pew of a church or the lowest den of vice: and so he was free to say that the recent outbreak of the gambling mania had began very largely in church fairs, church grab-bags, church cake, church lotteries for ministerial bed quilts and canes and easy chairs; and that during the war it had gained its strong foothold under the sacred cloak of patriotism and benevolence. But wherever found and for whatever done, its character was always the same, its fruits in the end equally bitter and terrible.

Its folly as a financial measure was first taken up; the doctrine of chance and law of averages explained, and the principle stated as the deduction not of morals merely, but of mathematics, that the individual or the State which patronizes it as a business, however honestly it is conducted, must be a loser. The objection is not that a man pays so much for a chance to make more—all business is conducted on that principle—but that he never possibly can get his money's worth of chance, that especially in a lottery he gives his dollar for at most only sixty-six cents worth of the opportunity to get it back. In the case of a State or Territory it is still worse, for the chance comes out of itself—out of the poorest class of people, too, the very ones that ought to be protected—and it pays at an enormous rate to get it; fifty per cent. at least. Getting $25,000 by this means is equivalent to paying fifty per cent. for its collection in taxes. It is like a hungry man's trying to feed himself by biting a piece out of his lame leg, having half of it fall to the ground, and half the rest snatched away by the dogs.

Its moral character was next taken up and its influence on its patrons and on the community illustrated by the experience of California and the scenes and history of Baden Baden and the other great gambling hells of Europe. Who will say that a system producing such fruits is not a sin? How do we know anything is wrong? Not alone by a precept written against it 2,000 years ago in a sacred book. Not merely by the instincts, often blurred, of the human soul: but by its results. "By their fruits ye shall know them," were the words of Jesus. And the fruits of gambling—could language against it be more plain, even though it were written in ten thousand sacred books and echoed and re-echoed by angel's trumpets from burning mounts or, open skies? God had set the brand of his own curse directly on the thing itself. And shame to the church! shame to the State! shame to the Territory! shame to the man everywhere that would plant its seed in human souls and foster its fruit broadcast in a Christian community!

And it is as dishonorable as it is foolish and sinful—is associated almost always with deceit and meanness and a thousand "tricks that are vain," especially on the part of those who adopt it as a business, cannot be otherwise if they would make it pay. A gentleman may indeed stake a few dollars on a game of cards or billiards for the mere excitement of the thing, and be a gentleman still; the speaker would say this, for he wished to be perfectly honest himself and paint nothing blacker than it really is, though he did not believe even them in the practice. But the fellow who did it as a profession and merely to make money—he is called—you know what; and is excluded from all decent society. Yet, how is the case any better when a church or State does it for the mere sake of making money? Is it any more honorable in the one than in the other? If it makes the individual a "black-leg," what does it make the Territory?

In conclusion the speaker, alluding to the bill then before the Legislature, said it had a significance in this new, unspotted land even greater than in other States of the Union and the older nationalities of Europe, because the people here are laying down the foundation principles of society and giving its tone and character to their whole future history. If they were an old worn out community, there might be some excuse for such a method of raising public moneys. But for a community in the freshness of its life, with a virgin soil and such boundless resources to adopt it—it is like a young man's going to the poor house for a living; giving to the world a declaration of imbecility. Who would come to a land that says it can only pay its debts by a lottery? One of the first lessons of all good citizenship is to bear cheerfully public burdens. No community that can not march up as bravely to the collector's desk and pay its own taxes, as to the battle field and fight its foes can have in it the elements of true greatness; and a debt of $25,000 that is paid by a lottery now, why it would only lead to a debt of a $100,000 five years hence to be paid in the same way.

The Territory has all the natural facilities for growth and the highest prosperity—soil, forests, rain, climate, location, and a body of water flowing up into its very heart, that of all in this world God seems to have made for the purposes of commerce. But it takes something more than population and cities and commerce and climate and forests and majestic waters to make a State—takes truth and principles and morals, takes the sweet airs that blow not from north or south or east or west, but straight down from the everlasting Heavens, takes the light and dew of the Eternal Spirit, the commerce of the skies, and those vast immortal tides that sweep in through no capes of earth, but along the channels of the Christian faith, takes a location somewhere within the great isothermal lines of religious love—all these in connection with the others to make in its noblest sense a prosperous State.

It is for the people and their legislators now to say how far they will have these devinor elements of prosperity. They are acting and legislating not for the interest of today merely, not for the twenty thousand inhabitants alone that are this year in the Territory, but for the interests of the long years to come and the welfare of the millions of people yet to be—are planting the mustard seed that is to grow up into a vast tree, striking the key note of what is to be the great organ song of an empire in the mighty future, giving direction to the waters that are to go down in ever widening streams of weal or woe, honesty or corruption, life or death for unaccounted years. And it behooves them to feel their tremendous responsibility, behooves them to sanction no need to which there can attach even the suspicion of wrong, see to it that every act is square with the everlasting laws. So shall the generations of the future rise up and call them blessed. So shall they learn at last that in laying well the foundations of an earthly State they have secured their eternal citizenship and put a timber also, to stand forever in the kingdom of God.

A. & S. L. Stone is closing out at cost his fancy goods, toys and willow ware, this is the last chance to buy cheap.

I say, mister, where is the Postoffice? Why, it is next door to S. L. Stone's cigar and tobacco store.

Kris Kringle's headquarters is at S. L. Stone's, next door to the Postoffice.

In the New York *Herald* we observe an advertisement to the effect that a whole Funeral can be had for $25. Well, that is decidedly cheap; but think of selling suits of Clothing at $18. It is done every day at Kohn & Bishoff's, 91 Front street, where they not only sell suits cheap, but it is so in everything they offer to the public.

THE GRAND DUKE ALEXIS has signified his intention of coming as far west as San Francisco. He will not be able to visit Portland, but he has given orders to J. O'Neil & Co. for a suit of clothes, as he is well aware that at that establishment can be had the best fitting, most stylish, and to cap the climax the cheapest suits to be obtained in this city. Not only have they excellent clothing but they have a full stock of fine fabrics, new ties, underfabrics, drawers and the famous Quaker Umbrella. It is unnecessary to say more. Go to O'Neil & Co's, 95 First street, and rest assured you will be pleased with what you see.

Shocks to the System.

The first shock of winter tells tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or vice versa, the body requires as a protection against epidemics, an acclimating medicine. All travelers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and Winter is here. Prepare the frame and the constitution to meet the change by a course of Hostetter's Stomach Bitters. This inestimable vegetable tonic increases the stamina of strength of those who take it, and renders them proof to a great extent against the debilitating power of cold and damp. There two agents are as prolific of disease as tropical heat, and subtract vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in Winter, might be avoided, by strengthening and regulating the system to advance with this invigorant and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, malarious fevers, bilious attacks and nervous affection, superinduced by a chilly and damp atmosphere.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!
ASSETS ..... $17 000,000!
ISSUED 9,925 POLICIES IN 1870.
Insuring Over $27,000,000!
WM. H. BEERS, Vice President and Actuary.
MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—
1st. PURE MUTUALITY, so that the entire surplus earnings over the actual cost of insurance is returned to the policy holders who are the only members.
2d. AGE having been organized in 1846. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful experiment in the method of conducting its business.
3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of Seventeen Millions of Dollars, after paying all losses promptly, and returning large dividends to its members. It has now an income of over Seven Millions of Dollars, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.
4th. NON-FORFEITURE OF POLICIES. It originated the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.
5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.
6th. DIVIDENDS. Its dividends are declared annually, and are available immediately on each its payment of premiums. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the second and all subsequent annual premiums.
7th. THE DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and bequeathed at any subsequent period in the payment of premiums.
8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although equitable claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

The Lords of Rhode Island.

THE SPRAGUES, BROWN AND IVES.

[Letter to Journal of Commerce.]

Somebody said Rhode Island was to have a new railroad—a narrow gauge road—so that both rails might be laid within the State lines. Perhaps that insinuation was intended to create a laugh. It did. Rhode Island enjoyed the joke, laughed and continues to work and put money in its purse. Probably no State in the Union is relatively as prosperous as this little State of Rhode Island. Among other features of its importance are its wealthy residents, who own lands and warehouses, and whose capital and minds direct industries in other parts of the country. The number of these is quite remarkable. The two greatest in the State, as is well known, are the wealthy rival houses of A. & W. Sprague and Brown & Ives. Their investments are made in nearly every State in the Union. Their wealth is so great that no one, not even themselves, can state it with exactness. The house of Sprague has its money invested in innumerable operations. The house of Brown & Ives has its capital in landed estate. Providence lays claim to both firms, fights their battles, and receives the benefits derived from handling their capital. The principals of the houses have not forgotten their late feud, and the adherents of each still keep the embers of discord brightly glowing.

A. & W. Sprague own or control the following industries: Baltic Cotton Mill, Norwich, Connecticut; cotton mill at Quidnick, Rhode Island; one at Natick; the Arctic Mill in Rhode Island; the Johnson mill, that large mill at Cranild Falls; another on the Kennebec river at Augusta, Maine; Kennebec Land and Lumber Company at Augusta; United States Flax Manufacturing Company; large print works at Cranston; Perkins Sheet Iron Mills; Sprague Mowing Machine Company; Comstock Foundry Company; American Horse Nail Company, Rhode Island Horse Shoe Company, Nicholson File Company, and all the horse railroads in Providence, besides the Providence and New York Steamship Company. They have interests in many other concerns, among them the Columbia Water Power Company at Columbia, South Carolina; ledge at Oneco, Connecticut, where they get stone for their buildings; Wheaton Bread Company in Boston, where they make crackers; three or four banks and small manufacturing companies; the Narragansett Trotting Park, Rhode Island Locomotive Works and Phœnix Iron Foundry. Besides a good many other small matters, they have also in addition immense investments in lands in all portions of the country. Their New York partners are Hoyt, Sprague & Co. They own [illegible] lands. The print works at Cranston are the largest in the United States. Most of the mills are operated by water power, but nearly all have steam machinery ready for application if necessity or desirable. The Spragues are entitled to the thanks of the community for the energy they have displayed in providing means for the direct employment of so many laborers, and the consumption of so much raw material, the product of our Western and Southern farms. That they have greatly benefitted Rhode Island, there can be no doubt.

In Brown & Ives we find another family, total different in nature and action from the last named. The Spragues are quick and impulsive; these are steady and cool. The paper of the Spragues will sometimes make its appearance in the market. That of Brown & Ives never does. A note of either would be considered gilt-edged paper at any time here. Brown & Ives founded a village at Lonsdale and erected four mills, running about 100,000 spindles. They are building a new mill in Lonsdale. They own from Lonsdale to Ashton, about three miles. At Ashton they own a mill of 700 looms and 40,000 spindles, which is a perfect model of symmetry and beauty. There is no more beautiful mill anywhere. Surrounding the mill is a village, mainly supported by Brown & Ives, of 3,500 inhabitants. They employ probably 2,500 persons at Lonsdale and Ashton. They have a mill at Manton, one at Hope and the Blackstone Manufacturing Company, and have industries at other places. Their possessions are immense, their villages are the neat and beautiful homes of contented people, and they, too, are a pillar of strength to the fabric of Rhode Island. As between the rival houses it is probable the wealth of Brown & Ives will exceed that of the Spragues by a few millions, but this statement is based merely on the fact that everybody says so.

The ship *Guiding Star* from Sitka and intermediate ports arrived this morning, she is announced to leave for N. York another trip Dec. 11th.

The steamer *Oriflamme* left this evening for San Francisco with produce and passengers.

The steamer *Alaska* left San Francisco for this city today, and will be due here on Wednesday.

The bark *Barracouta* was chartered to load Wheat for the United Kingdom by Messrs. Allen & Lewis to-day.

The bark *Webfoot* is reported at Astoria. Her cargo of S. A. Clinton [illegible] M. P. R. R. Co.

The ship *Windward* and the barks *H. W. Almy* and *Rival* are in port awaiting the bar [illegible] and were expected to cross it this evening. They will [illegible] load for this port with wheat cargoes.

The bark *Nile Regent*, with cargo of Island produce, to Allen & Lewis, is in the river under tow of the *Dirigo Thompson*, and will be up Sunday morning.

Advices from Rio Janeiro, under date of October 25th, state that the ship *Sovereign of the Seas*, Dec, will cargo of railroad iron, was still in port under repair.

New York advices of 2d inst. give the following quotations: Good demand for Wheat at about higher. Whale Oil, $54; Sperm Oil, fair demand—prices were scarce and now quotable at $1 60@1 70; winter bleached, $1 80.

The following statement gives the imports of Wheat into the United Kingdom for the ten months of this year:

From	cwts.	Value.
Russia	18,310,475	£7,675,066
U. States	6,115	53,217
Germany	2,447,256	1,007,711
Prussia	122,004	62,978
Free Hanse Towns	1,368,165	568,476
Turkey, Wallachia, Moldavia	1,330,765	726,180
Egypt	544,865	297,277
United States	10,332,641	5,432,870
Chili	411,995	221,956
British North America	2,429,248	1,427,520
Other countries	656,817	346,240
Total, 1871	32,313,333	£10,013,620
Total, 1870	25,969,710	13,460,978
Flour, cwts	2,347,011	2,819,775

From the above statement it will be seen that Russia takes the lead in the exportation to England, with the United States next.

The following table gives the estimated Cane Sugar supplies of Europe and the United States and from where drawn:

From	Tons.
Brazil	512,000
Mauritius	84,000
Manila	78,000
Porto Rico	75,000
Demerara	75,000
Louisiana	70,000
Barbadoes	30,000
Jamaica	21,000
Jamaica	19,000
Total	1,103,000

The prevailing opinion in the Western States and Europe is that the Sugar crop will be short, and consequently the Sugar market will rule high. In referring to the places from whence we draw large supplies, Manila and Batavia, we also find that the Western States as well as Europe draw heavily, particularly of the former, as the following table of exports from the Philippine Islands from January 1st to Sept. 25th, shows:

	1871.	1870.
	Piculs.	Piculs.
To United States (Atlantic ports)	435,960	211,879
To Great Britain and the Continent	461,708	494,191
To Australia	109,604	83,742
To California	40,612	49,000
To China, Java and India	30,491	21,414

The chief source of supply of the California refineries is drawn from Manila or the Philippine Islands. Last mail advices from England, under date of Nov. 4th, gave an advancing market for all dark grades of Sugar, which will probably advance prices in Manila.

In a long and able article on the short Sugar crop and the cultivation of Beet Root Sugar, the New York *Commercial Bulletin* closes with the following to which we invite the attention of our farmers and capitalists:

If the attempt were made in some of our States or Territories, under the conditions of a mild and even temperature, moist atmosphere and rich virgin soil, and upon an extensive scale, with ample capital and the intelligence of management, it [illegible] by no means improbable that the result might be [illegible] and possibly eminently so. It would perhaps be found [illegible] to use [illegible] labor in the experiment, in order to get cheapness, steady work and the celicacy of manipulation required. There requirements could be best secured in the Pacific States, and perhaps especially in Washington Territory or Oregon, which supply all the peculiar needs of climate and soil, and which, when the Northern Pacific Railway is opened could not only procure the needful [illegible] but could also forward the Sugar product to the East. We are not without hope that this may prove to be one of the many unexpected advantages to arise from the completion of another transcontinental railroad. We have recently seen beets, which were exhibited at the Olympia, W. T. Fair, weighing respectively 32 lbs for the common beet, and 14 lbs for the sugar beet, which shows a remarkable adaptability of that country for their production. What proportion of saccharine matter they may have contained we are not aware. This whole question is one of deep interest not only to the sugar trade, but also to our farming interest.

Produce Market.

WHEAT—The market, owing to difference in views of holders and shippers, is devoid of animation. The bark *Barracouta*, mentioned above as chartered, will take about 21,000 centals. There are three coasters—the barks *Webfoot*, *Almy* and *Rival*—reported arrived. They will probably be chartered to load for San Francisco, and if so the aggregate amount that will be shipped by them will be about 20,000 centals. The *Barracouta*'s cargo is at Oregon City and will be brought forward as soon as the vessel is ready to receive it. We quote market at $2 15@2 20 ₩ cental, sacked.

FLOUR—The steamer *Oriflamme* took out near 2,000 bbls to the San Francisco market. The *Gussie Telfair* will take on for points north about 1,500 bbls. We quote market for extra of standard brands at $7 25@7 50; country brands, $7; outside brands and superfine, $6 25@6 50.

OATS—The ship *Windward* with 300 tons and the bark *Rival* with about 15 tons both lots for this market will probably be up next week when our market will be fully supplied. We quote market at $2 25@2 65 ₩ cental sacked.

BRAN—Mail advices from San Francisco received today quote market there at 40c ₩ 45a for Oregon. Under light receipts the local trade is dull at [illegible] 40c ₩ doz, and consignments shipped to San Francisco are out of the market.

HAY—Offerings are freer with demand only fair and in consequence the market shows less firmness in our quotations. We quote Timothy, baled, at $30 ₩ ton; other kinds $16@20 ₩ ton, baled.

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are offered for sale, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payments, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Portland Office, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."
